Subject: December 2009 wolf hunt

Hello Del, I just wanted to drop you a line and again tell you thanks for a great hunt. I never had a wolf hunt on my "to do list" but the opportunity came up unexpected and I took it, I am very happy I did. I have been on eight guided hunts over the past twelve years and two of them really stand out as exceptional, your wolf hunt is one of them. The excitement and adrenaline when the wolves appeared cannot be put into words. This is something considering I have been inside fifteen yards on the ground with a bow on a 400lb black bear! The wolf hunt was something I will never forget, I have been home for four months now and still get excited when reliving the story to friends. Although we braved 49 below zero temperatures, I would do it again with no hesitation and highly recommend your very impressive knowledge of the land and wildlife. Please feel free to use me as a reference to anyone even remotely considering a hunt with you.
